

Safety Data Sheets (GHS-SDS)

Product Name: SJ9000A Revision Date: Jan 26, 2024 Issue date: Feb 25, 2024 Version: 4.8 Compiled in accordance with the 10th revised edition (ST/SG/AC.10/30/Rev.10 2023) of the UN GHS system..

SECTION 1: Identification

1.1 GHS Product identifier

Chemical Name	POLYESTER RESIN		
1.2 Other means of identification			
Chemical trade name	SJ9000A		
Molecular formula	Mixture, not applicable.		
Structural formula	Mixture, not applicable.		
Molecular weight	Mixture, not applicable.		
CAS number	Mixture, not applicable.		

1.3 Recommended use of chemical and restrictions on use

Recommended use of the product

Resin used in the production of powder coatings.

Restricted use of the product

Only for industrial, professional or research purposes, please consult the manufacturer for other information.

1.4 Supplier's details

Manufacturer	Huangshan Shenjian New Materials Co.,Ltd.	
Address	NO.6 Zijin Road, Xunhuan Economic Park, Huizhou Area, Huangshan City,	
	Anhui Province, China	
Post code	2415999	
Contact number	+86-559-3511758	
Company Fax	+86-559-3512668	
E-mail address of person responsible for this SDS	ASJ_SDS@ 126.com	
Company Website	http: //www.shen-jian.com	
1.5 Emergency phone numb	<u>ber</u>	
Emangement talenhame		

Emergency telephone +86-559-3514891 number

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

Safety Data Sheets(GHS)

Version:4.8

	Substance		Mixture	\checkmark
GHS hazard category	Not classified.			
<u>2.2 GHS label elements</u>				
Signal word	No signal word.			
Hazard statements	No known significa	ant effects or crit	ical hazards.	
Precautionary statements				
Prevention				
P264	Wash hands and fa	ce thoroughly af	er handling.	
P271	Use only outdoors	or with adequate	ventilation.	
P272	Contaminated work	clothing should	not be allowed out of the v	vorkplace.
Response				
P302+P352	IF ON SKIN:Wash	with plenty of w	vater.	
P362+P364	Take off contamina	ted clothing and	wash it before reuse.	
Storage				
P410+P403	Protect from sunlig	ht. Store in a we	ll-ventilated place.	
Disposal				
P501	Dispose of conter	nts/container in	accordance with local/re	gional/national/international
	regulations.			
Pictograms	Not applicable.			
2.3 Other hazards which d	o not result in classij	<u>fication</u>		
	Handling and/or ha	andling of this s	ubstance may generate dus	t that can cause mechanical
	irritation of the eye	s, skin, nose and	throat.	
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~				

# SECTION 3: Composition/information on ingredients

#### Substances/Mixtures

	Substances		Mixtures	$\checkmark$
There are no additional ingre	edients present which	, within the cu	rrent knowledge of the supplier and	l in the concentrations
applicable, are classified as	hazardous to health of	r the environm	nent and hence require reporting in	this section.
Occupational exposure limit	s, if available, are list	ted in Section	8.	

# SECTION 4: First-aid measures

### 4.1 Description of necessary first-aid measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing.	
	Get medical attention if symptoms.	
Skin contact	Flush contaminated skin with plenty of water.	
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes.	
	Get medical attention if symptoms.	
Ingestion	Wash out mouth with water. Get medical attention if symptoms.	

### 4.2 Most important symptoms/effects, acute and delayed

#### Potential acute health effects

Inhalation

Exposure to airborne concentrations above statutory or recommended exposure limits

	may cause irritation of the nose, throat and lungs.	
Skin contact	No known significant effects or critical hazards.	
Eye contact	Causes eye irritation.	
Ingestion	No known significant effects or critical hazards.	
Over-exposure signs/symptoms		
Inhalation	Adverse symptoms may include the following: respiratory tract irritation, coughing.	
Skin	No specific data.	
Eye	Adverse symptoms may include the following: pain or irritation,watering,redness.	
Ingestion	No specific data.	
4.3 Indication of immediate medical attention and special treatment needed, if necessary		
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities	
	have been ingested or inhaled.	
Specific treatments	No specific treatment.	
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.	
See toxicological information	on (Section 11)	

SECTION 5: Fire-fighting measures

#### 5.1 Suitable extinguishing media

Suitable	Use foam, CO ₂ or dry powder fire extinguishing agent.	
Not suitable	Avoid using direct water to extinguish fires. Direct water may cause the splash of	
	flammable liquids, and in severe cases, spread the fire.	

#### 5.2 Specific hazards arising from the chemical

Unusual fire/explosion hazards

No special danger.

Hazardous thermal decomposition products

In the event of a fire, harmful decomposition products may be produced, such as carbon monoxide, carbon dioxide, black smoke, aldehydes, and organic acids.

#### 5.3 Special protective actions for fire-fighters

Firefighters should wear breathing masks ((conforming to MSHA/NIOSH requirements or equivalent)) and full protective clothing. Firefighters should put out the fire at a safe distance upwind.

Prevent firefighting water from polluting the surface and groundwater system..

# SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Irrelevant and unprotected personnel enter. Do not touch or walk past the spilled material. Cut off all ignition sources. No flames, smoking or flames are allowed in the hazardous area. Avoid breathing dust. Provide adequate ventilation. Wear suitable respirators when there is insufficient ventilation. Wear suitable personal protective equipment. For emergency responders

If you need to wear special clothing to deal with spills, please refer to section 8 for information on suitable and inappropriate materials. See the information in the section "Non-emergency responders".

#### 6.2 Environmental precautions

Avoid spreading and running away of spillage, and avoid spillage from contacting and entering the soil, rivers, sewers and sewage pipes.

May be harmful to the environment if released in large quantities.

#### 6.3 Methods and materials for containment and cleaning up

Small leak	Move the container away from the spill area.
	Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place
	them in waste containers with designated labels.
Massive leaks	Move the container away from the spill area. Approach the spill from upwind.
	Prevent entry into sewers, waterways, basements or confined areas.
	Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place
	them in waste containers with designated labels.
	Avoid raising dust and avoid spreading it by wind.

Note: For personal protective equipment, see section 8; for waste disposal, see section 13.

# SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Protective measures	Put on appropriate personal protective equipment (see section 8). No ingestion.
	Avoid contact with eyes, skin and clothing. Avoid breathing dust. Avoid release to the
	environment.Prevent dust accumulation. Use only under adequate ventilation.
	Wear suitable respirators when there is insufficient ventilation.
	When transferring materials, the container and equipment should be grounded to release
	static electricity generated during material transportation.
Advice on general	Eating, drinking, and smoking should be prohibited in areas where this substance is
	handled, stored, and processed.Staff should wash their hands before eating, drinking and
	smoking.Before entering the eating area, remove contaminated clothing and protective
	equipment.

# 7.2 Conditions for safe storage, including any incompatibilities

Conditions for safe storag	e	
	Do not store above the following temperature: 30°C (86°F (Fahrenheit)).	
	Store in accordance with local regulations.	
	It should be stored separately from oxidizing substances and avoid mixed storage.	
	Avoid direct sunlight, keep away from heat and fire sources, and store in a cool, dry and	
	ventilated place.	
Packaging Materials	It is recommended to use the packaging materials allocated by the supplier.	
	It is not recommended to use other containers or packaging materials to prevent pollution.	
Remarks	Avoid raising dust.	

# SECTION 8: Exposure controls/personal protection

## 8.1 Control parameters

Occupational exposure Limits:

	No data.
Biological limits:	
	No data.
Monitoring method	EN 14042 Workplace Air A guide to procedures used to assess exposure to chemical or
	biological agents.
<u>8.2 Appropriate engineerin</u>	ig controls
	Use only under adequate ventilation.
	If dust, smoke, gas, vapor or mist are generated during use, please use process isolation
	equipment, local ventilation systems or other engineering controls to ensure that the
	content of airborne pollutants in the working environment of workers is below the
	recommended or legal limit. The process control method used should also control the
	concentration of gas, steam or dust below the exposure limit value.
<u>8.3 Individual protection n</u>	teasures, such as personal protective equipment(PPE)
Eye/face protection	Wear safety glasses with side shields.
Skin protection	It is recommended to wear dust-proof clothing.
Respiratory protection	If the result of the risk assessment shows that it is necessary, please use a suitable
	breathing apparatus with a particulate filter that meets the standard. The choice of
	respirator must be based on known or expected exposure levels, product hazards, and
	safe working limits of the selected respirator.
Hand protection	If the result of the risk assessment shows that it is necessary, please always wear
	chemical-resistant and impermeable gloves that meet the standards when you come into
	contact with chemical products.
Hygiene measures	After exposure to chemicals, wash hands, forearms and face thoroughly before meals,
	before smoking, before going to the toilet, and after work.Use appropriate techniques to
	remove clothing that may have been contaminated. Contaminated clothing needs to be
	washed before reuse. Ensure that the eyewash station and safety shower room are close
	to the workplace.
Remarks	All chemical protective gloves are suitable for use to avoid contact with skin.
	The choice of gloves should be aimed at the physical protection of hands.

# SECTION 9: Physical and chemical properties and safe characteristics

Physical State	Solid flake particles.
Colour	Pale white or light yellow.
Odour	Odourless.
Odor threshold	No data.
Melting point/freezing point	No data.

Boiling point, initial boiling	No data.
Flammability (solid or gas)	Not flammable, but will burn if exposed to flame or high temperature for a long time.
Lower and upper explosion	No data.
Flash point	>350 (°C) (closed cup)
Auto-ignition temperature	>350(°C)
Decomposition temperatur	e>350(°C)
PH	Not applicable.
Kinematic viscosity	Not applicable.
Solubility (mg/L)	Partially soluble in the following materials: diethyl ether and acetone.
	Insoluble in the following materials: cold water, hot water, methanol and n-octanol.
Solubility in water (mg/L)	No data.
Partition coefficient n-octanol/water(log value)	No data.
Vapour pressure(kPa)	No data.
Evaporation rate	No data.
Relative density (water = 1)	1.2
Density (g/cm ³ )	1.2 (23°C)
Bulk density	600 to 750 kg/m3
Relative vapor density (air=1)	No data.
Particle characteristics	No data.

# SECTION 10: Stability and reactivity

### <u>10.1 Reactivity</u>

	No specific test data related to reactivity available for this product or its ingredients.
<u>10.2 Chemical stability</u>	
	This product is stable.
	It is stable under recommended storage and handling conditions (see section 7).
<u>10.3 Possibility of hazardou</u>	is reactions
	Under normal storage and use, hazardous chemical reactions will not occur.
<u>10.4 Conditions to avoid</u>	
	Avoid generating dust and all sources of ignition (spark or flame) during handling.
	Take precautions to prevent electrostatic discharge. To prevent fire or explosion, the
	container and equipment should be grounded when transferring materials to release static
	electricity generated during material transportation. Prevent dust accumulation.
<u>10.5 Incompatible material</u>	<u>\$</u>
	Reactive or incompatible with the following materials: oxidizing materials.
<u>10.6 Hazardous decomposi</u>	tion products
	Under normal storage and use conditions, hazardous decomposition products will not be
	produced.

# SECTION 11: Toxicological information

### 11.1 Toxicological effects

Acute toxicity	No data.
Skin corrosion/irritation	There are no obvious known effects or serious dangers.
Serious eye damage/irritation	May cause irritation of the eye mucosa.
Respiratory or skin sensitization	No data.
Germ cell mutagenicity	No data.
Carcinogenicity	No data.
Reproductive toxicity	No data.
STOT-single exposure	No data.
STOT-repeated exposure	No data.
Aspiration hazard	No data.
	_

#### 11.2 Information on likely routes of exposure

No data.

Potential acute health effects

Eye contact	Causes eye irritation.
Inhalation	Exposure to airborne concentrations above statutory or recommended exposure limits
	may cause irritation of the nose, throat and lungs.
Skin contact	No known significant effects or critical hazards.
Ingestion	No known significant effects or critical hazards.

#### 11.3 Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	Adverse symptoms may include the following: pain or irritation, watering, redness.
Inhalation	Adverse symptoms may include the following: respiratory tract irritation, coughing.
Skin contact	No specific data.
Ingestion	No specific data.

### 11.4 Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

Potential immediate effects Not available.

Potential delayed effects Not available.

Long term exposure

Potential immediate effects Not available.

Potential delayed effects Not available.

Potential chronic health effects

#### Not available.

General	Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.
Carcinogenicity	No known significant effects or critical hazards.
Mutagenicity	No known significant effects or critical hazards.
Reproductive toxicity	No known significant effects or critical hazards.

# 11.5 Numerical measures of toxicity (such as acute toxicity estimates)

Acute toxicity estimate N/A

# SECTION 12: Ecological information

#### 12.1 Toxicity

	No data.
12.2 Persistence and degrad	<u>lability</u>
	No data.
<u>12.3 Bioaccumulative poten</u>	<u>tial</u>
	No data.
<u>12.4 Mobility in soil</u>	
Soil/water partition coefficient (Koc)	No data.
<u>12.5 Results of PBT and vP</u>	vB assessment
PBT	Not applicable.
vPvB	Not applicable.
<b>12.6 Other adverse effects</b>	
	No known significant effects or critical hazards.

# SECTION 13: Disposal considerations

#### <u>13.1 Disposal methods</u>

Waste chemicals	The generation of waste should be avoided or reduced as much as possible. The disposal
	of products, solutions and by-products shall comply with environmental protection.
	Dispose of surplus and non-renewable products through a licensed waste disposal
	contractor. Waste should not be discharged into the sewer without disposal, unless it
	fully complies with the requirements of the competent authority in all jurisdictions.
	Requirements of waste disposal regulations and relevant local regulations.
Contaminated packaging	Should be recycled. Only when recycling is not feasible, should incineration or landfill be
	considered. Use safe methods to dispose of this product and its container.
	Empty containers or linings may retain some product residues.
	Avoid spreading and running away of spillage, and avoid spillage from contacting and
	entering the soil, rivers, sewers and sewage pipes.
13 2 Disposal consideration	

#### 13.2 Disposal considerations

Please refer to the "Disposal methods" section.

13.3 Other information

As far as the supplier currently knows, this product is not considered hazardous waste.

# SECTION 14: Transport information

	UN	IMDG	IATA
<u>UN number</u>	Not regulated.	Not regulated.	Not regulated.
<u>UN proper shipping name</u>	_	_	

Transport hazard class(es)			
Packing group, if applicable	_		_
<u>Environmental hazards</u>	No	No	No
Additional information	_	_	—

Special precautions for user Transport within user's premises: always transport in closed containers that are upright

and secure. Ensure that persons transporting the product know what to do in the event of

an accident or spillage.

### Transport in bulk according to IMO instruments

Not available.

# SECTION 15: Regulatory information

### 15.1 Inventory information

#### Disclaimer

This Safety Data Sheet (SDS) was prepared according to the 10th revised edition of the United Nations GHS system (ST/SG/AC.10/30/Rev.10 2023). The data comes from international authoritative databases and data submitted by companies. Other information is based on the company's current the knowledge that you have mastered. We try our best to ensure the accuracy of all the information in it, but due to the diversity of information sources and the limitations of the company's knowledge, this document is only for users' reference. The user of the safety data sheet should make a judgment on the rationality of the relevant information according to the purpose of use. We are not responsible for any damages caused by the operation, storage, use or disposal of this product.
