#### 6.2 Environmental precautions

Avoid spreading and running away of spillage, and avoid spillage from contacting and entering the soil, rivers, sewers and sewage pipes.

May be harmful to the environment if released in large quantities.

### 6.3 Methods and materials for containment and cleaning up

Small leak	Move the container away from the spill area.
	Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place
	them in waste containers with designated labels.
Massive leaks	Move the container away from the spill area. Approach the spill from upwind.
	Prevent entry into sewers, waterways, basements or confined areas.
	Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place
	them in waste containers with designated labels.

Note: For personal protective equipment, see section 8; for waste disposal, see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Protective measures	Put on appropriate personal protective equipment (see section 8). No ingestion.
	Avoid contact with eyes, skin and clothing. Avoid breathing dust. Avoid release to the
	environment.Prevent dust accumulation. Use only under adequate ventilation.
	Wear suitable respirators when there is insufficient ventilation.
	When transferring materials, the container and equipment should be grounded to release
	static electricity generated during material transportation.
Advice on general	Eating, drinking, and smoking should be prohibited in areas where this substance is
	handled, stored, and processed.Staff should wash their hands before eating, drinking and
	smoking.Before entering the eating area, remove contaminated clothing and protective
	equipment.

### 7.2 Conditions for safe storage, including any incompatibilities

Conditions for safe storage	
	Do not store above the following temperature: 30°C (86°F (Fahrenheit)).
	Store in accordance with local regulations.
	It should be stored separately from oxidizing substances and avoid mixed storage.
	Avoid direct sunlight, keep away from heat and fire sources, and store in a cool, dry and
	ventilated place.

	chemical-resistant and impermeable gloves that meet the standards when you come into
	contact with chemical products.
Hygiene measures	After exposure to chemicals, wash hands, forearms and face thoroughly before meals,
	before smoking, before going to the toilet, and after work.Use appropriate techniques to
	remove clothing that may have been contaminated. Contaminated clothing needs to be
	washed before reuse. Ensure that the eyewash station and safety shower room are close
