

# Safety Data Sheets (GHS-SDS)

Product Name: SJ1140 Revision Date: Jan 26, 2024 Issue date: Feb 25, 2024 Version: 4.8 Compiled in accordance with the 10th revised edition (ST/SG/AC.10/30/Rev.10 2023) of the UN GHS system..

## SECTION 1: Identification

## 1.1 GHS Product identifier

| Chemical Name                     | POLYESTER RESIN          |  |
|-----------------------------------|--------------------------|--|
| 1.2 Other means of identification |                          |  |
| Chemical trade name               | SJ1140                   |  |
| Molecular formula                 | Mixture, not applicable. |  |
| Structural formula                | Mixture, not applicable. |  |
| Molecular weight                  | Mixture, not applicable. |  |
| CAS number                        | Mixture, not applicable. |  |
|                                   |                          |  |

## 1.3 Recommended use of chemical and restrictions on use

Recommended use of the product

Resin used in the production of powder coatings.

## Restricted use of the product

Only for industrial, professional or research purposes, please consult the manufacturer for other information.

## <u>1.4 Supplier's details</u>

| Manufacturer                                      | Anhui Shenjian New Materials Co.,Ltd.                                     |
|---|---|
| Address   | NO.8 Baoshun Road, Qiaobei Industrial Park, Wuhu Economic & Technological |
|   | Development Area, Anhui Province, China                                   |
| Post code   | 241008  |
| Contact number                                    | +86-553-5316333   |
| Company Fax                                       | +86-553-5316330   |

# SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

|                            | Substance                  |                              | Mixture                    | $\checkmark$       |
|----------------------------|----------------------------|------------------------------|----------------------------|--------------------|
| GHS hazard category        | Not classified.            |                              |                            |                    |
| 2.2 GHS label elements     |                            |                              |                            |                    |
| Signal word                | No signal word.            |                              |                            |                    |
| Hazard statements          | No known significant e     | effects or critical hazards. |                            |                    |
| Precautionary statements   |                            |                              |                            |                    |
| Prevention                 |                            |                              |                            |                    |
| P264                       | Wash hands and face the    | horoughly after handling.    |                            |                    |
| P271                       | Use only outdoors or w     | with adequate ventilation.   |                            |                    |
| P272                       | Contaminated work clo      | othing should not be allowe  | d out of the workplace.    |                    |
| Response                   |                            |                              |                            |                    |
| P302+P352                  | IF ON SKIN:Wash wit        | th plenty of water.          |                            |                    |
| P362+P364                  | Take off contaminated      | clothing and wash it before  | e reuse.                   |                    |
| Storage                    |                            |                              |                            |                    |
| P410+P403                  | Protect from sunlight.     | Store in a well-ventilated p | lace.                      |                    |
| Disposal                   |                            |                              |                            |                    |
| P501                       | Dispose of contents/c      | container in accordance      | with local/regional/nation | onal/international |
|                            | regulations.               |                              |                            |                    |
| Pictograms                 | Not applicable.            |                              |                            |                    |
| 2.3 Other hazards which do | not result in classifica   | <u>tion</u>                  |                            |                    |
|                            | Handling and/or handl      | ing of this substance may    | generate dust that can a   | cause mechanical   |
|                            | irritation of the eyes, sl | kin, nose and throat.        |                            |                    |
| SECTION 3: Composit        | tion/information or        | n ingredients                |                            |                    |
| <u>Substances/Mixtures</u> |                            |                              |                            |                    |

# SubstancesMixturesImage: Constraint of the supplier and in the concentrationsThere are no additional ingredients present which, within the current knowledge of the supplier and in the concentrationsapplicable, are classified as hazardous to health or the environment and hence require reporting in this section.Occupational exposure limits, if available, are listed in Section 8.

# SECTION 4: First-aid measures

## 4.1 Description of necessary first-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. |
|--------------|--|
|              | Get medical attention if symptoms.   |
| Skin contact | Flush contaminated skin with plenty of water.  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes.                 |
|              | Get medical attention if symptoms.   |
| Ingestion    | Wash out mouth with water.Get medical attention if symptoms.                         |
| ( ) M        |  |

## 4.2 Most important symptoms/effects, acute and delayed

## Potential acute health effects

Inhalation

Exposure to airborne concentrations above statutory or recommended exposure limits

|  | may cause irritation of the nose, throat and lungs.  |  |  |
|--|--|--|--|
| Skin contact   | No known significant effects or critical hazards.  |  |  |
| Eye contact  | Causes eye irritation.   |  |  |
| Ingestion  | No known significant effects or critical hazards.  |  |  |
| Over-exposure signs/sympto   | oms  |  |  |
| Inhalation   | Adverse symptoms may include the following: respiratory tract irritation, coughing.        |  |  |
| Skin   | No specific data.  |  |  |
| Eye  | Adverse symptoms may include the following: pain or irritation, watering, redness.         |  |  |
| Ingestion  | No specific data.  |  |  |
| 4.3 Indication of immediate medical attention and special treatment needed, if necessary |  |  |  |
| Notes to physician   | Treat symptomatically. Contact poison treatment specialist immediately if large quantities |  |  |
|  | have been ingested or inhaled.   |  |  |
| Specific treatments  | No specific treatment.   |  |  |
| Protection of first-aiders   | No action shall be taken involving any personal risk or without suitable training.         |  |  |
| See toxicological information (Section 11)   |  |  |  |

## SECTION 5: Fire-fighting measures

## 5.1 Suitable extinguishing media

| Suitable     | Use foam, $CO_2$ or dry powder fire extinguishing agent.                           |
|--------------|--|
| Not suitable | Avoid using direct water to extinguish fires. Direct water may cause the splash of |
|              | flammable liquids, and in severe cases, spread the fire.                           |

## 5.2 Specific hazards arising from the chemical

Unusual fire/explosion hazards

No special danger.

Hazardous thermal decomposition products

In the event of a fire, harmful decomposition products may be produced, such as carbon monoxide, carbon dioxide, black smoke, aldehydes, and organic acids.

### 5.3 Special protective actions for fire-fighters

Firefighters should wear breathing masks ((conforming to MSHA/NIOSH requirements or equivalent)) and full protective clothing. Firefighters should put out the fire at a safe distance upwind.

Prevent firefighting water from polluting the surface and groundwater system..

## **SECTION 6:** Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Irrelevant and unprotected personnel enter. Do not touch or walk past the spilled material. Cut off all ignition sources. No flames, smoking or flames are allowed in the hazardous area. Avoid breathing dust. Provide adequate ventilation. Wear suitable respirators when there is insufficient ventilation. Wear suitable personal protective equipment. For emergency responders

If you need to wear special clothing to deal with spills, please refer to section 8 for information on suitable and inappropriate materials. See the information in the section "Non-emergency responders".

## 6.2 Environmental precautions

Avoid spreading and running away of spillage, and avoid spillage from contacting and entering the soil, rivers, sewers and sewage pipes.

May be harmful to the environment if released in large quantities.

## 6.3 Methods and materials for containment and cleaning up

| Small leak    | Move the container away from the spill area.                                   |
|---------------|--|
|               | Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place |
|               | them in waste containers with designated labels.                               |
| Massive leaks | Move the container away from the spill area. Approach the spill from upwind.   |
|               | Prevent entry into sewers, waterways, basements or confined areas.             |
|               | Use a vacuum cleaner to clean up or thoroughly clean up contaminants and place |
|               | them in waste containers with designated labels.                               |
|               | Avoid raising dust and avoid spreading it by wind.                             |
|               |  |

Note: For personal protective equipment, see section 8; for waste disposal, see section 13.

## SECTION 7: Handling and storage

## 7.1 Precautions for safe handling

| Protective measures | Put on appropriate personal protective equipment (see section 8). No ingestion.          |
|---------------------|--|
|                     | Avoid contact with eyes, skin and clothing. Avoid breathing dust. Avoid release to the   |
|                     | environment.Prevent dust accumulation. Use only under adequate ventilation.              |
|                     | Wear suitable respirators when there is insufficient ventilation.                        |
|                     | When transferring materials, the container and equipment should be grounded to release   |
|                     | static electricity generated during material transportation.                             |
| Advice on general   | Eating, drinking, and smoking should be prohibited in areas where this substance is      |
|                     | handled, stored, and processed.Staff should wash their hands before eating, drinking and |
|                     | smoking.Before entering the eating area, remove contaminated clothing and protective     |
|                     | equipment.   |

## 7.2 Conditions for safe storage, including any incompatibilities

| Do not store above the following temperature: 30°C (86°F (Fahrenheit)).                         |
|---|
| Store in accordance with local regulations.   |
| It should be stored separately from oxidizing substances and avoid mixed storage.               |
| Avoid direct sunlight, keep away from heat and fire sources, and store in a cool, dry and       |
| ventilated place.   |
| Packaging Materials It is recommended to use the packaging materials allocated by the supplier. |
| It is not recommended to use other containers or packaging materials to prevent pollution.      |
| <b>Remarks</b> Avoid raising dust.  |

# SECTION 8: Exposure controls/personal protection

## 8.1 Control parameters

Occupational exposure Limits:

|                                    | No data.  |
|------------------------------------|---|
| Biological limits:                 |   |
|                                    | No data.  |
| Monitoring method                  | EN 14042 Workplace Air A guide to procedures used to assess exposure to chemical or       |
|                                    | biological agents.  |
| <u>8.2 Appropriate engineerir</u>  | ng controls   |
|                                    | Use only under adequate ventilation.  |
|                                    | If dust, smoke, gas, vapor or mist are generated during use, please use process isolation |
|                                    | equipment, local ventilation systems or other engineering controls to ensure that the     |
|                                    | content of airborne pollutants in the working environment of workers is below the         |
|                                    | recommended or legal limit. The process control method used should also control the       |
|                                    | concentration of gas, steam or dust below the exposure limit value.                       |
| <u>8.3 Individual protection n</u> | neasures, such as personal protective equipment(PPE)                                      |
| Eye/face protection                | Wear safety glasses with side shields.  |
| Skin protection                    | It is recommended to wear dust-proof clothing.  |
| Respiratory protection             | If the result of the risk assessment shows that it is necessary, please use a suitable    |
|                                    | breathing apparatus with a particulate filter that meets the standard. The choice of      |
|                                    | respirator must be based on known or expected exposure levels, product hazards, and       |
|                                    | safe working limits of the selected respirator.   |
| Hand protection                    | If the result of the risk assessment shows that it is necessary, please always wear       |
|                                    | chemical-resistant and impermeable gloves that meet the standards when you come into      |
|                                    | contact with chemical products.   |
| Hygiene measures                   | After exposure to chemicals, wash hands, forearms and face thoroughly before meals,       |
|                                    | before smoking, before going to the toilet, and after work.Use appropriate techniques to  |
|                                    | remove clothing that may have been contaminated. Contaminated clothing needs to be        |
|                                    | washed before reuse. Ensure that the eyewash station and safety shower room are close     |
|                                    | to the workplace.   |
| Remarks                            | All chemical protective gloves are suitable for use to avoid contact with skin.           |
|                                    | The choice of gloves should be aimed at the physical protection of hands.                 |

# SECTION 9: Physical and chemical properties and safe characteristics

| Physical State               | Solid flake particles.      |
|------------------------------|-----------------------------|
| Colour                       | Pale white or light yellow. |
| Odour                        | Odourless.                  |
| Odor threshold               | No data.                    |
| Melting point/freezing point | No data.                    |

| Boiling point, initial boiling                      | No data.  |
|---|---|
| Flammability (solid or gas)                         | Not flammable, but will burn if exposed to flame or high temperature for a long time. |
| Lower and upper explosion                           | No data.  |
| Flash point   | >350 (°C) (closed cup)  |
| Auto-ignition temperature                           | >350(°C)  |
| Decomposition temperature                           | e>350(℃)  |
| PH  | Not applicable.   |
| Kinematic viscosity                                 | Not applicable.   |
| Solubility (mg/L)                                   | Partially soluble in the following materials: diethyl ether and acetone.              |
|   | Insoluble in the following materials: cold water, hot water, methanol and n-octanol.  |
| Solubility in water (mg/L)                          | No data.  |
| Partition coefficient<br>n-octanol/water(log value) | No data.  |
| Vapour pressure(kPa)                                | No data.  |
| Evaporation rate                                    | No data.  |
| Relative density<br>(water = 1)                     | 1.2   |
| Density (g/cm <sup>3</sup> )                        | 1.2 (23°C)  |
| Bulk density  | 600 to 750 kg/m3  |
| Relative vapor density (air=1)                      | No data.  |
| Particle characteristics                            | No data.  |

# SECTION 10: Stability and reactivity

## 10.1 Reactivity

|                                     | No specific test data related to reactivity available for this product or its ingredients. |
|-------------------------------------|--|
| <u>10.2 Chemical stability</u>      |  |
|                                     | This product is stable.  |
|                                     | It is stable under recommended storage and handling conditions (see section 7).            |
| <u>10.3 Possibility of hazardou</u> | <u>s reactions</u>   |
|                                     | Under normal storage and use, hazardous chemical reactions will not occur.                 |
| 10.4 Conditions to avoid            |  |
|                                     | Avoid generating dust and all sources of ignition (spark or flame) during handling.        |
|                                     | Take precautions to prevent electrostatic discharge. To prevent fire or explosion, the     |
|                                     | container and equipment should be grounded when transferring materials to release static   |
|                                     | electricity generated during material transportation. Prevent dust accumulation.           |
| 10.5 Incompatible materials         | <u>}</u>   |
|                                     | Reactive or incompatible with the following materials: oxidizing materials.                |
| <u>10.6 Hazardous decomposit</u>    | ion products   |
|                                     | Under normal storage and use conditions, hazardous decomposition products will not be      |
|                                     | produced.  |

# SECTION 11: Toxicological information

## 11.1 Toxicological effects

| Acute toxicity                    | No data.   |
|-----------------------------------|--|
| Skin corrosion/irritation         | There are no obvious known effects or serious dangers. |
| Serious eye<br>damage/irritation  | May cause irritation of the eye mucosa.                |
| Respiratory or skin sensitization | No data.   |
| Germ cell mutagenicity            | No data.   |
| Carcinogenicity                   | No data.   |
| Reproductive toxicity             | No data.   |
| STOT-single exposure              | No data.   |
| STOT-repeated exposure            | No data.   |
| Aspiration hazard                 | No data.   |
|                                   |  |

## 11.2 Information on likely routes of exposure

No data.

Potential acute health effects

| Eye contact  | Causes eye irritation.   |
|--------------|--|
| Inhalation   | Exposure to airborne concentrations above statutory or recommended exposure limits |
|              | may cause irritation of the nose, throat and lungs.                                |
| Skin contact | No known significant effects or critical hazards.                                  |
| Ingestion    | No known significant effects or critical hazards.                                  |

## 11.3 Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | Adverse symptoms may include the following: pain or irritation, watering, redness.  |
|--------------|---|
| Inhalation   | Adverse symptoms may include the following: respiratory tract irritation, coughing. |
| Skin contact | No specific data.   |
| Ingestion    | No specific data.   |

## 11.4 Delayed and immediate effects and also chronic effects from short and long term exposure

```
Short term exposure
```

Potential immediate effects Not available.

Potential delayed effects Not available.

Long term exposure

Potential immediate effects Not available.

Potential delayed effects Not available.

Potential chronic health effects

Not available.

| General               | Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation. |
|-----------------------|--|
| Carcinogenicity       | No known significant effects or critical hazards.                                    |
| Mutagenicity          | No known significant effects or critical hazards.                                    |
| Reproductive toxicity | No known significant effects or critical hazards.                                    |
|                       |  |

11.5 Numerical measures of toxicity (such as acute toxicity estimates)

Acute toxicity estimate N/A

## SECTION 12: Ecological information

## 12.1 Toxicity

|  | No data.  |  |  |  |
|--|---|--|--|--|
| 12.2 Persistence and degradability     |   |  |  |  |
|  | No data.  |  |  |  |
| <u>12.3 Bioaccumulative poten</u>      | <u>tial</u>                                       |  |  |  |
|  | No data.  |  |  |  |
| <u>12.4 Mobility in soil</u>           |   |  |  |  |
| Soil/water partition coefficient (Koc) | No data.  |  |  |  |
| <u>12.5 Results of PBT and vP</u>      | vB assessment                                     |  |  |  |
| РВТ                                    | Not applicable.                                   |  |  |  |
| vPvB                                   | Not applicable.                                   |  |  |  |
| <u>12.6 Other adverse effects</u>      |   |  |  |  |
|  | No known significant effects or critical hazards. |  |  |  |

# SECTION 13: Disposal considerations

## 13.1 Disposal methods

| Waste chemicals             | The generation of waste should be avoided or reduced as much as possible. The disposal of products, solutions and by-products shall comply with environmental protection. |
|-----------------------------|---|
|                             |   |
|                             | Dispose of surplus and non-renewable products through a licensed waste disposal   |
|                             | contractor. Waste should not be discharged into the sewer without disposal, unless it   |
|                             | fully complies with the requirements of the competent authority in all jurisdictions.   |
|                             | Requirements of waste disposal regulations and relevant local regulations.  |
| Contaminated packaging      | Should be recycled. Only when recycling is not feasible, should incineration or landfill be   |
|                             | considered. Use safe methods to dispose of this product and its container.  |
|                             | Empty containers or linings may retain some product residues.   |
|                             | Avoid spreading and running away of spillage, and avoid spillage from contacting and  |
|                             | entering the soil, rivers, sewers and sewage pipes.   |
| 13 2 Disposal consideration | 16  |

#### 13.2 Disposal considerations

Please refer to the "Disposal methods" section.

13.3 Other information

As far as the supplier currently knows, this product is not considered hazardous waste.

# SECTION 14: Transport information

|                                | UN             | IMDG           | IATA           |
|--------------------------------|----------------|----------------|----------------|
| <u>UN number</u>               | Not regulated. | Not regulated. | Not regulated. |
| <u>UN proper shipping name</u> | _              | _              |                |

| Transport hazard class(es)   | _  | _  |    |
|------------------------------|----|----|----|
| Packing group,if applicable  | _  | _  | _  |
| <u>Environmental hazards</u> | No | No | No |
| Additional information       | _  | _  | _  |

Special precautions for user Transport within user's premises: always transport in closed containers that are upright

and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## Transport in bulk according to IMO instruments

Not available.

## SECTION 15: Regulatory information

## 15.1 Inventory information
